Various out of syllabus poems were recited by students. Recitation is one of the important and effective modes of learning a language and appreciating a piece of literature. This activity aimed at building confidence as they learn to speak more accurately with actions and props.

Children chose a variety of topics for their recitation like funny poems on animals, friendship, wildlife, environment etc. It is the basic means of training language ability. Beauty is the realm of poetry, children enjoy the beauty of expression, thoughts, feelings rhyme, rhythm and music of words.

Hindi elocution competition was organised for the students of **Sr.Kg.** on 13<sup>th</sup> September 23. The topic of the contest was "Speak in Hindi about your ideal personality". Children spoke eloquently in hindi about their father, grandmother, mother, farmer, Dr. Abdul Kalam, Savitribai Phule, etc. with lot of confidence and performed exceptionally well. The competition gave a lot of encouragement to the performers and the students present there.

An elocution competition is the art of public speaking that gives self-boost and confidence to speak in front of a large audience. It enables children to create a connect with the audience who is listening to them through voice modulation.

Smart usage of attractive props enhanced the overall experience for the young audience.

The overall performance of the young orators was impressive and memorable.
