Topic: Diary Writing

A diary entry is a very personal kind of writing. It is meant to record certain significant events and feelings of the writer.

Format:

- Date/day
- Time
- Salutation 'Dear Diary'
- Contents of the diary entry
- Name and Signature

1) You are going on a school picnic with your classmates and teachers and are very excited. The night before the trip you sit down to write your diary. Describe in about 100 words what you have planned for the picnic and how you hope to enjoy yourself there. You are Amit/ Amita

9 pm

Dear Diary,

I am feeling very excited tonight. I am going on a picnic tomorrow with my classmates to Imagica. Some of our teachers will also accompany us. I have packed some food items including chocolate cakes and toffees. My mother has made a dozen sandwiches. My friends will also be bringing some food, and we shall all share and eat. I keep imagining all the fun that we are going to have tomorrow. But my mother came into the room just now and warned me that if I do not go to sleep now, I might fall asleep at the picnic! As if that is ever going to happen! But maybe she is right. So, good night!

Amit/ Amita

2) Your Examination results have been announced today. You have stood first in the class. Write a diary entry expressing your feelings on your achievement.

Friday, 25 March, 2024

9pm

Dear Diary,

It is a great day for me. I am really excited about my result. I worked really hard for my exams. I studied sincerely and steadily. I was happy to be praised by the teachers at the school. My friends congratulated me on my success in the exams. How happy mom and dad were, when they came to know my result! However, it is just a small achievement. There is a lot to come yet.

Riya

TOPIC-AUTOBIOGRAPHY

Autobiography - An autobiography is a self-written account of the life of oneself.

I. Write an autobiography of a pencil

I am a pencil. I was born in a big factory in the city. My name is Atlas. I am smart and thin. I am basically made up of wood and graphite. After manufacturing, I was transferred to a truck, and the driver took me to a stationery shop. In that shop, I met so many friends, like pens, crayons, and erasers. The shop was very beautiful and was always crowded.

Amar, my owner, finally bought me one day. He was kind and smart. He took great care of me. He used me to write and also draw beautiful scenery. He even shared me with his best friend. He only sharpened me when it was needed. He used me for many days.

Now I am in my last days of life. One or two trims, and I will be dead. I have lived a happy life. I am proud that God had created me into such a useful thing.

II. Write an Autobiography of a book

There was a time when people looked towards me for medicinal purposes. Then there came a time when they looked at me for knowledge. Now, I am an old and wise book lying in a glass cupboard in the city's biggest library.

Lying on this shelf, I sometimes recall those good old days when I was an eucalyptus tree providing medicinal eucalyptus oil. Those were my happy days. Then one day, some woodcutters came and cut me. They handled me roughly, gave me a bumpy ride in a truck and then flattened me into sheets of paper.

I was sent to the printing press. From there I came out as a hardbound book ready for sale. I was bought to be placed in this library. I was very popular and during the decades that followed, many people borrowed and read me. They gained great knowledge.

Now, of course, nobody picks me up anymore. Some of the books stacked near me, talk in whispers about e-books. The moment I hear that word, I can feel the goose bumps rise all over me. Wonder what will happen to us all books in this library.

ROLL NO: _____

Q. I. Fill in the following blanks:

1. Flat teeth are in the _____ of the mouth.
2. _____ fixes plant in the soil.
3. The food gets completely digested in the _____.
4. Undigested waste is collected in _____.
5. Roots do not get sufficient _____ in marshy area.

Q. II. Tick the correct option:

1. As the plant grow, roots become-
a. thin, soft b. thick, woody
2. The parts of the body which can be seen from outside are called-
a. internal organs b. external organs
3. Beans and rose have-
a. taproot b. aerial root
4. A baby is born with-
a. no teeth b. twenty small teeth
5. _____ are used for tearing the food.
a. molars b. canines

Q. III. State whether true or false.

1. Teeth give shape to our face and help us to speak clearly.
2. The root of banana plant store food in it.
3. The back of the tongue is sensitive to sweet taste.
4. Blood carries the digested food to all parts of the body.
5. Maize plants have roots arising from base of their stem.

Q.IV: Name the following.

1. Food travels from your stomach to-
2. Function of a plant to absorb water and minerals from the soil.
3. They are the temporary teeth

Q.V. A. Read assertion and reason and select the correct option.

1. Assertion (A): Uncooked food can become source of many infections.
Reason(R): Unwashed fruits and vegetables can carry eggs of worms.

- (i) Both A and R are true and R is the correct explanation of A.
- (ii) Both A and R are true and R is not the correct explanation of A.
- (iii) A is true but R is false
- (iv) A is false but R is true

2. Assertion (A): In some plants roots provide extra support to the plant

Reason(R): In banyan tree, special roots grow downwards from the branches.

- (i) Both A and R are true and R is the correct explanation of A.
- (ii) Both A and R are true and R is not the correct explanation of A.
- (iii) A is true but R is false
- (iv) A is false but R is true

B. In a vibrant garden, three roots gathered: a deep taproot from a carrot, a wide fibrous root from grass and an adventitious root from ivy. Each had a unique role. The taproot provided stability and drew nutrients from deep within the soil. The fibrous root spread out wide, quickly absorbing water and preventing erosion. The adventitious root clung to surfaces, allowing the ivy to climb towards sunlight. Despite their differences, they worked together to keep the garden lush and healthy. The taproot anchored, the fibrous root spread, and the adventitious root climbed, showcasing the strength found in diversity.

Based on this story, answer the following questions:

1. Which three roots had gathered in the garden?
2. What was the role of taproot?
3. Give an example of the adventitious root.
4. What moral value do you get from this story?

Q.VI. A. Answer the following:

1. List five good habits that should be taken care of at the time of eating food.
2. State the two main functions of roots.
3. How many sets of teeth are formed during one's life time? Name them.
4. In what way are the roots of banyan tree and maize 'special'?
5. Name the different types of teeth present in the mouth. Also mention their Functions.
6. Explain the role of roots in soil conservation

B. Define- Denture

C. Write short notes on-

- a. Large intestine
- b. Characteristics of Root

Q.VII. Give reasons.

1. Washing of fruits and vegetables are important for us.
2. Cooked food is good for our health
3. Aerial roots need to come out of the soil.

Q.VIII. Draw a labeled diagram of a digestive system.

ROLL - NO : _____

Q.1) Write the correct option in the box.

i) $65,800 + 0 =$ _____

- a) 0 b) 65,800 c) 65,801

ii) The place value of 3 in 3,89,222 is _____

- a) 3,000 b) 3,00,000 c) 300

iii) $6,000 - 2,000 =$ _____

- a) 5,000 b) 4,000 c) 3,000

iv) _____ Hundred = 10 tens.

- a) 1 b) 100 c) 1,000

Q.2) Write number names.

- a) 5,00,800 b) 12,544 c) 1,11,111

Q.3) A) Write the following numerals in expanded form in three ways.

- a) 90,705 b) 2,20,700 c) 50,050

B) Write in ascending order : 5,55,555 ; 5,555 ; 555 ; 5,15,555

C) Write in descending order : 16,987 ; 21,431 ; 2,176 ; 4,90,800

Q.4) Arrange in columns and add.

- A) 555 ; 5,555 ; 5,55,555 B) 3,34,700 ; 588 ; 1,70,122

Q.5) Perform the following subtraction and check the answers.

- A) $2,75,200 - 1,50,000$ B) $9,865 - 1,487$

Q.6) Write down the period, place and place value of the encircled digits.

- A) 2, 9 8, 1 4 7 B) 1, 8 7, 5 4 4

Q.7) Solve the puzzle.

	1	3	4	
2				

Across:

- 1) $6,988 - 0$
- 2) $200 + 400 + 500$

Down:

- 3) Place value of 9 in 3,98,012
- 4) $54,000 - 46,000$

Q.8) Compare Which is larger: $7,89,654 - 2,34,567$ or $5,67,890 + 1,23,456$?

Q.9) Solve the following questions after reading the paragraph.

Sheetal wants to organize a donation drive to support a local animal shelter. On the first day, she collects 8,765 packets of pet food. The next day, she receives 9,876 packets of pet food from generous donors.

- a) How many items does Sheetal have altogether to donate?
- b) Why we should be kind towards animals?
- c) What is the value learnt?

Q.10) Solve the following word problems.

- a) Find the difference between the place values of 7 in 7,87,954.
- b) During a fundraising event, a charity organization sold 12,345 raffle tickets in the morning. In the afternoon, they sold an additional 9,876 tickets. How many raffle tickets did the charity organization sell in total throughout the day?
- c) Tina had saved ₹ 2,87,654 to buy a car. However, after purchasing the car, she had ₹ 23,456 left. How much did Tina spend on buying the car?
- d) Ananya had 87,654 books in her library. After donating 23,456 books to a local school, how many books does she have left in her library?
- e) Government allocates funds to two national parks. Park A receives ₹ 2,34,567 and Park B receives ₹ 6,78,901.
 - i) What is the combined funding for both parks?
 - ii) What is the importance of national park for environment?
- f) A local hospital had a fund of ₹8,39,765 to provide free medical care for patients in need. Over the past year, they spent ₹4,67,829 on treatments and surgeries.
 - i) How much money is left in the fund for future patients?
 - ii) What is the value learnt?
